EDUCATION

Madanapalle Institute of Technology & Science (MITS), Madanapalle B Tech (Bachelor of Technology) , Computer Science Engineering (CSE)	2024 - 2028
Narayana Junior college Intermediate/12th	2024 96%
ZP High school 10th Grade/SSC	2022 89%

SKILLS

Frontend: HTML, CSS, JavaScript, ReactJS
Backend: Node.js, Express.js
Database: SQL
Programming Languages: Python, C++
Core Concepts: Data Structures & Algorithms
AI: Generative AI

PROJECTS

Voice2action Ai - Voice Notes To Action Items [Link](#)

• Developed an AI-powered voice productivity application that converts recorded/uploaded audio into text and transforms transcripts into summaries, key points, decisions, and prioritized action items. Implemented REST APIs using Node.js and Express.js, integrated OpenAI for speech-to-text and AI analysis, and stored user notes in MongoDB for persistent access.

Nxt Trendz (ecommerce Clone-amazon, Flipkart) [Link](#)

• Built a responsive e-commerce web app with secure authentication, product listing, search, and filtering features. Implemented protected routes and dynamic data rendering using REST APIs. Designed a clean UI with shopping cart functionality to enhance user experience.

Nxt Watch [Link](#)

• Developed a YouTube-inspired video streaming web application using React.js, implementing component-based architecture and dynamic routing. Integrated REST APIs to fetch and display video content including trending, gaming, and search-based results with efficient state management. Implemented JWT-based authentication with protected routes to ensure secure user access and personalized features like saved videos. Designed a fully responsive UI with dark/light theme support, focusing on performance optimization and seamless user experience.

ACHIEVEMENTS

- 2nd Prize - Coding Competition
- Cleared Nxtmock Ai Interview - Nxtwave
- 1st Prize - Department-level Project Expo
